

21 FUND-A-NEED

When Jameson Humane was founded in 2014, the mission was predicated on protection, rescue, and adoption for all domestic animals.

Fast forward eight years later, and Jameson Humane has been called upon time and time again to lead, pivot, innovate, and provide impact in a wide range of areas including animal rescue, adoption, education, and advocacy, stemming the tide of overpopulation, disaster preparedness and response, community service for our senior citizens, houseless and low-income population, and domestic violence survivors, among many others.

Our community is **local, regional, statewide, and national** as animals in need don't recognize a zip code. Our best work comes when we are facing a challenge.

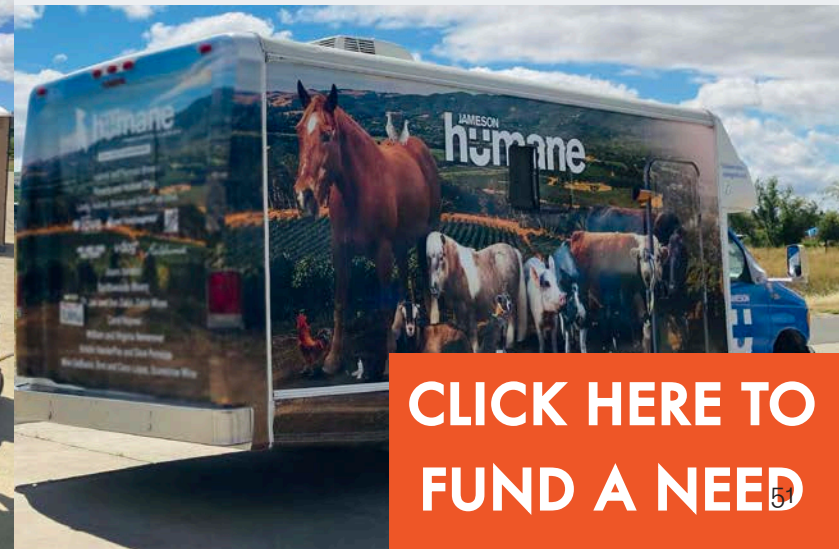

We, as a nation and a community, have experienced years of profound challenges. Tonight's Fund-A-Need is two-fold and is a novel response to the turbulence of the last several years, addressing the most current critical needs of our community: 1) immediate access to affordable veterinary care, and 2) mental health and healing.

Affordable Veterinary Care for Those in Need

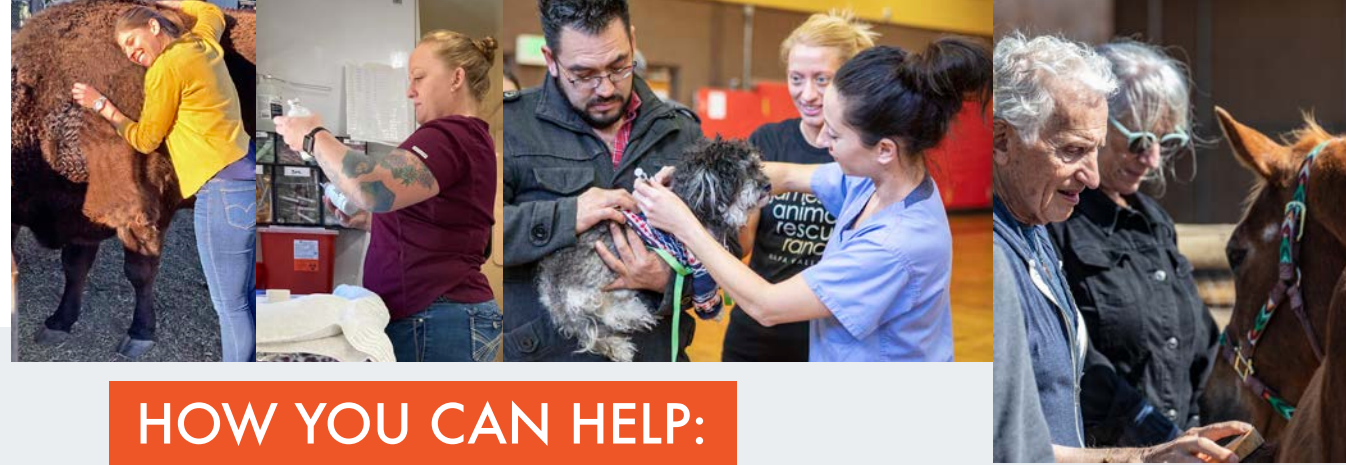

During the pandemic, there was a severe shortage in the availability of veterinary care, and people and their animals have been suffering. The population of strays and surrenders has boomed, leading to overpopulation, distress, and death. We must address this, and quickly. Our Vet Mobile provides access to **affordable animal care—primarily spay/neuter services—**to those who are most in need. We have been working diligently to get our Vet Mobile on the road to serve as many people and their animals as possible. With your help, we can make these life-saving services available to many, many more!

Animal-Assisted Healing Program

We would be remiss if we did not take note of the state of our heavy, collective mental health. On top of the isolation, stress, and hardship felt during the pandemic, our nation has seen social and cultural strife, and disasters varying in severity due to the climate crisis. If you are not suffering, surely, you are close to someone who is or has been. Our Animal Assisted Healing program provides immediate relief to those experiencing myriad mental and physical health issues. We are addressing this by working with all sectors of our population, nationally, and enriching our animals' lives at the same time. It is staggering.

This is the first time in WineaPAWlooza history, we found it necessary to fund two essential programs, but we know that with your help, we can and will respond to both - and we start TONIGHT!

HOW YOU CAN HELP:

We need you to raise your paddles high and raise them often so that we can provide these life saving services to our community and beyond:

The ability to provide access to affordable Veterinary care for low-income humans and their animals, through Jameson Humane's Vet Mobile Program offering:

- Spay/neuter for all domestic animals
- Wellness checks
- Vaccinations and microchips
- Dentals
- Minor surgeries

To be able to provide access to an affordable Animal Assisted Healing Program to address the mental health crisis, specifically those suffering from anxiety and depression, including:

- Trauma in young children
- Teenage depression
- Domestic violence survivors
- First Responders suffering from PTSD
- Alzheimer's and dementia patients
