# Fund-A-Need: PAWS for a CAUSE – Access to Affordable Veterinary Care

Supporting Jameson Humane's Mobile Veterinary Unit (MVU)

Join us tonight as we rally together to make a significant impact on the lives of countless animals in need in the Bay Area and beyond. Jameson Humane's MVU is a lifeline for animals who might not receive the vital care they need. This fully equipped mobile clinic brings veterinary care directly to underserved areas, as well as providing services onsite at Jameson, making it easier for folks to access affordable healthcare for their beloved companions.

Your contribution to the **Fund-A-Need** will make a significant difference, helping Jameson Humane's MVU extend its reach and impact on the community. Together, we can ensure that no animal goes without the care they deserve due to financial constraints or limited access to veterinary services.

Jameson's decade of service to our community has been steeped in creating solutions for tremendous impact—animal rescue and advocacy, providing pet food and supplies nationwide during disasters, offering services and animal care for our senior citizen, low-income, and unhoused community, programs for domestic violence and sexual assault survivors, those with dementia and Alzheimer's, and much more. However, one of the most critical needs and challenges has always been access to affordable veterinary care and low or no-cost spay/neuter to reduce the overpopulation of cats and dogs which became even more difficult during the pandemic.

*We have only just begun!*

**Your generous support not only improves the lives of animals but also strengthens the bond between humans and their beloved companions. Let's stand together as a compassionate community and champion affordable veterinary care for all.**

## Fund-A-Need: PAWS for a CAUSE – Access to Affordable Veterinary Care

**Place your bid on Lot 2023: "Paws for a Cause" and we can make a positive impact on many more animals' and humans' lives!**

### **Key services that your support will make possible:**

**Preventive Care:** By funding this lot, you'll enable the MVU to provide vaccinations, microchips, and regular wellness checks to animals in need. Preventive care is vital for maintaining the overall well-being of animals and preventing the spread of diseases.

*Throughout the past 6 years, we have vaccinated and microchipped over 6000 animals and with the MVU, our impact will be exponential!*

**Spay/Neuter:** Your support will assist in both covering the costs of spay/neuter, reducing the overpopulation of cats and dogs, and preventing unwanted litters in our community and also providing low-cost support to our rescue partners. This crucial service not only improves the quality of life for individual animals but also helps control the homeless and feral animal population.

*Since the MVU's inception in 2022, we have provided over 1500 spay/neuter surgeries for both our rescue partners as well for as our low-income community.*

**Medical Procedures & Surgeries:** From necessary surgeries to critical care interventions, your contribution will help provide necessary medical treatments to animals suffering from injuries, illnesses, and chronic conditions, and prevent unnecessary euthanasia due to lack of funds.

*Just this year, we were able to provide 40 lifesaving emergency surgeries!*

**Note: All funds raised through this lot will go directly to supporting Jameson Humane's Mobile Veterinary Unit and its associated programs, benefiting the community and the animals.**
