

## Fund-A-Need Grants for Global Stewardship

We're thrilled to unveil this year's Fund A Need for WineaPAWlooza 2025—the official launch of the Grants for Global Stewardship Program! Although the program has been six months in the making, it's been percolating over the past decade. We've made great strides in animal welfare and now, with our ability to support and inspire others through catalytic grants, we can do so much more. This next chapter isn't just about continuing the work—it's about accelerating it.

As Helen Keller once said, "Alone we can do so little; together we can do so much." This program is a reflection of that spirit—an invitation to work together to create meaningful, lasting change.

### A Mission of Protection, Innovation, and Stewardship

At its core, the Grants for Global Stewardship Program is dedicated to saving animals and the planet, and ending suffering through innovation, impact, protection, compassion, and stewardship **across the country**. Through a thoughtful, outcomes-driven grantmaking process, this national program will fund life-saving projects based on their potential to create a better world—for animals, for people, and for the planet we share.

Spearheaded by Monica Stevens, with the support of Joann Serafini and a trusted network of advocates, this program is the result of combined thought-leadership and activism in the animal and environmental welfare space. It's more than a program. It's a transformational movement.

Let's make it a better world—together.

### What Will These Grants Support?

- **Legal Aid:**
  - Support for legal cases addressing animal cruelty, neglect, and abuse
  - Resources to ensure that justice is pursued and accountability upheld in urgent cases
- **Animal Welfare & Advocacy Programs:**
  - Access to spay/neuter services and mobile veterinary wellness clinics
  - Community cat support and humane population control
  - Aid for families facing pet food insecurity, ensuring animals can remain in loving homes
  - Advocacy and education programs that foster compassion, empathy, and awareness in future generations
  - *These are only a few of the many needs we will be able to fund*
- **Disaster Preparedness, Response & Pet Support for Survivors:**
  - Grants for communities to build resilience and readiness in the face of natural disasters
  - Emergency resources for survivors of domestic violence, helping them stay safe without having to leave their pets behind

Each grant awarded is more than a gift—it's a ripple of impact. A chance to empower the visionaries and doers who are out there, every day, building a more humane, sustainable world.

### A Platform for Lasting Change

Together, we're constructing a new platform for long-term impact—one rooted in shared values, collective action, and strategic generosity. This is how we lead with compassion. This is how we drive innovation. This is how we protect what matters most.

On June 21 at WineaPAWlooza 2025, when you raise your paddle, you're doing more than contributing to a cause—you are investing in a legacy.

Let's fund the future  
and make a better  
world.
