

MEET THE WILD MUSTANGS OF MONTGOMERY CREEK RANCH -- A ONCE IN A LIFETIME EXPERIENCE!

MAY 21, 2022

Ever wanted to get up close and personal with real wild horses? Here's your chance! Meet Ellie Phipps Price and Chris Towl, Founders of the Montgomery Creek Ranch, a 2000 acre sanctuary for 200+ Mustangs. Ellie and Chris will share the story of these iconic and majestic horses.

Begin the afternoon at Durrell Vineyard (Sonoma) by meeting some of Montgomery Creek Ranch's mustangs, including a few that are available for adoption. Learn about wild horses in America, their plight, and a plan for management and protection of wild horses and other wildlife on our public lands. Then relax and talk amongst your new friends over a fabulous (vegan) dinner prepared by Chef Derseweh in the garden served with sensational Dunstan and Carter Cellars. Dress in style because there will be a chance to have a professional photographer take your portrait with the mustangs.

This Immersion Experience also includes an invitation to a Day at the Ranch at Montgomery Creek Preserve in April 2022! There you will be able to see the Mustangs amongst their herds roaming free. There is nothing more breathtaking than seeing these magnificent wild horses in their natural environment! This package is ripe for a son or daughter who you know would fall head over heels to hang out with the horses (sans the alcohol of course!). Oh, and there's swag too.

This one-of-a-kind experience is being offered on a buy-a-spot basis at \$5,000 per person; 20 spots available.
