

JOIN NAPA'S NEXT GENERATION & MICHELIN STARDOM

JUNE 10, 2022

You definitely know the names...but do you really know Napa Valley's next generation of pioneers? This is your chance to get well acquainted with the phenoms who are steering Napa Valley into the future via hard work, big ideas, and some pretty legendary DNA, and meet the rockstar first female chef to receive three-Michelin stars...in the US.

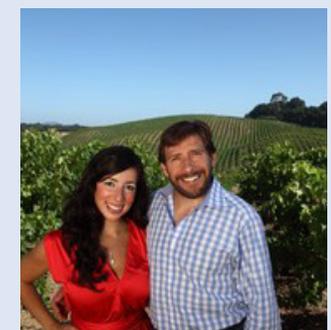

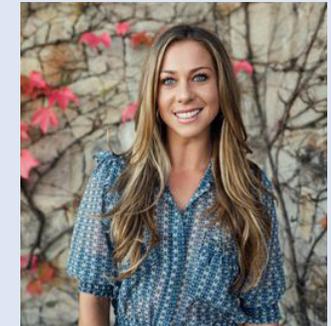

You'll convene at Jameson Humane, receive an immersive tour of the property (including a hug and photo with your favorite animal), and then enjoy an incredible, unforgettable plant-based meal—prepared by Michelin three-star Chef Dominique Crenn of Atelier Crenn—in the company of some of the brightest stars in Napa Valley: Jaime Araujo, Hugh Davies, Amanda Harlan, Alycia and Angelina Mondavi (of Aloft), Will Phelps and Elizabeth Neumann, Samantha Rudd, and Anthony and Suzanne Truchard. You can ask them about growing up in the vines, what they're up to now, and where Napa Valley's future lies. The meal will be vegan (of course), the wines will be unmatched (obviously), and the insights of these Napa Valley heirs will be invaluable (definitely). Bid accordingly!

LOT INCLUDES:

- Plant-based dinner for 20 at Jameson Humane in the company of Jaime Araujo, Hugh Davies, Amanda Harlan, Alycia and Angelina Mondavi, Will Phelps and Elizabeth Neumann, Samantha Rudd, and Anthony and Suzanne Truchard.
- Special, custom-select of vintner favorite wines from each of their own cellar
- Once-in-a-lifetime meeting with Chef Dominique Crenn (for those foodies out there)

This one-of-a-kind experience is being offered on a buy-a-spot basis at \$5,000 per person.

Event date June 10, 2022.
