How is a 3-liter bottle different than four 750s? Let us count the ways: They can age longer. There are fewer of them. Many wineries don't bother to make them at all. They turn heads in restaurants, and they're tougher for teens to pilfer from the cellar.

Most importantly, they always get opened under special circumstances, because simply opening one makes the circumstances special. You don't reach for a 3-liter when you're alone and lonely – if you do, please seek help. These bomb-shaped beauties are parties in themselves. Call your friends, tell them which one you're thinking of cracking, and trust us – they'll show up.

To that end, we simply and humbly offer you the chance to add these ten (10) 3-liter bottles, all produced by tonight's guests and our Legendary Luminaries, to your cellar.

JULY 27-28, 2018, GAMBLE FAMILY VINEYARDS
